

ACKNOWLEDGEMENTS

Over a period of 21 months the Conservation Group sought the guidance, advice and practical help of a considerable number of individuals and organisations, and the response was invariably generous.

In projects like the Conservation Exhibition and this report, the role of graphic materials — drawings, photographs and maps — is particularly important. The Group was provided with first-class photographs and slides of the contemporary Grange by Professor David Simpson, Mr. Colin MacLeod, Mr. John Leonard, Mr. George Neill, Miss Eileen Dobbie, Miss Ruth Sime and Mr. Andrew Millar. The historical photographs were lent by the Edinburgh Room at the Central Public Library and Yerbury Art Galleries, and by several individuals — Mrs. A. D. Hunter, Mr. Eric Lucey and the late Mr. John Proctor. Some of these were reproduced for the report by Mr. J. McGovern. The original drawings have been contributed by Mrs. Pat Macleod, Mr. D. Douglas and also Mr. A. Campbell of the Department of Architectural Services of Lothian Regional Council. The poster produced to publicise the Conservation Exhibition was designed by Mr. Callum Glen.

A drawing of the Grange wyvern on the cover of the report is by Mrs. K. Chart, and has been reproduced for the report by John Bartholomew & Son Ltd.

In researching the role of the Dick Lauder family in the history and development of the area, the Group has been indebted to the late Sir George Dick Lauder and to Lady Dick Lauder, who kindly gave permission to reproduce photographs of family portraits.

At different stages of the preparation of the report, assistance was provided by officials of the Conservation and Landscape Sections of the Planning Department, City of Edinburgh District Council; by Mr. Colin McWilliam, Director of the Course of Architectural Conservation, and Dr. P. A. Aspinall, Department of Architecture, Heriot-Watt University.

Mr. Christopher Yonge did the preliminary work on Listed buildings, and Mr. John McCalden, of Scotdata, contributed the computerised maps for the Household Survey. Mrs. Helen Outram, lately of Sciennes Primary School, let her pupils take part on the survey on "The Image of The Grange".

In collecting material for the chapter on trees, Mrs. Isobel Simpson was given valuable assistance by Mr. S. A. Armstrong, lately of the Royal Botanic Garden, Edinburgh; and the Department of Physical Planning, Lothian Regional Council.

Thanks are also expressed to the ministers and/or individual members of the kirk sessions of the churches in The Grange for providing information about the history of the various churches.

A great deal of the success of the Conservation Exhibition in January 1981 was due to the co-operation received from Miss Barbara Dickson, Librarian, and staff of Newington Public Library; Mayfield Church; the Planning Department and the Department of Public Relations and Tourism, City of Edinburgh District Council; and Miss Helen MacColl (the former Head Teacher), the staff, particularly Miss Catherine Smith and Mrs. Fiona Reid, and the pupils of Sciennes Primary School.

Acknowledgement is also made of the help given by all the other individuals at various times in the long course of the conservation study, particularly Mrs. Angela Clarke (the former Chairman of The Grange Association), the members of the Committee of the Association and Miss Marjorie Wilson, Miss Aileen Locker, Mrs. Kay Maccabe, Mr. J. K. L. Howden, and those who helped with the household and parking surveys.

The Curlers — Sir George Harvey, 1806–1876. The National Gallery of Scotland, Edinburgh.
(Believed to have been painted in Grange Loan.)
