## APPENDIX V

### TREE PRESERVATION ORDERS ON TREES IN THE GRANGE

Tree Preservation Orders are intended to safeguard amenity and therefore can only be used where the loss of trees so covered would be detrimental to the amenity of the public at large.

They are usually placed, therefore, over groups of trees which have been identified as having strategic importance in the landscape or townscape; over visually important trees which are known to be under threat; and over trees on land which is in a state of flux, e.g. likely to be developed or likely to be split up among a number of owners.

YEAR	ADDRESS	DETAILS
1. 1970	125 Grange Loan, now developed as flats	31 open ground trees, including elm, cherry, horse chestnut, holly, rowan, whitebeam, Weymouth pine etc.
2. 1972	52 Dick Place, development pending	2 groups of trees and many individuals, including ash, sycamore, lime, elm, birch, whitebeam, Scots pine, etc. (See table on Dutch Elm Disease)
3. 1973	29 South Oswald Road, being developed as Salvation Army housing	4 groups of trees and individual trees, including Corsican pine, cedar, yew, cypress, juniper, ash (pendulus), Thuya, larch, poplar, birch and lime, etc. Reduction permitted.
4. 1975	3 South Lauder Road	A fine free-growing copper beech.
5. 1975	95 Grange Loan, now developed as West Grange Gardens	2 groups of trees comprising cedar, walnut, cherry, sycamore, horse chestnut and birch.
6. 1975	123 Grange Loan, now St. Margaret's School	3 groups consisting of Corsican pine, cypress, yew, beech, lime and sycamore. 3 individual elms, one ash and one beech. (See table on Dutch Elm Disease).
7. 1975	29 Hope Terrace, now Mount Grange Hotel	5 groups of trees and 6 individuals — 2 sycamore, holly, yew, cedar and elm (See table on Dutch Elm Disease). Reductions permitted in 1980.
8. 1977	18 Lauder Road, being developed as Viewpoint housing	2 groups of sycamore, horse chestnut and elm. 5 individuals of lime, 3 sycamore, yew. Reduction permitted.
9. 1979	129 Grange Loan	A fine free-growing copper beech.
10. 1979	20 Lauder Road	A fine free-growing Turkey oak, considered by the Planning Department to have a considerable life before it.

## APPENDIX VI

### INCIDENCE OF DUTCH ELM DISEASE IN THE GRANGE

YEAR	NUMBER OF TREES	ADDRESS	RESPONSIBILITY	REPLACEMENT	COVERED BY TREE PRESERVATION ORDER
1. 1978	1	52 Dick Place	Miller Homes	No replacement accepted	T.P.O.
2.	1	29 Hope Terrace	Mount Grange Hotel	No replacement accepted	T.P.O.
3.	1	25/27 Mortonhall Rd. /11 Oswald Road	Residents' Association	1 tree accepted	—
4.	1	Sciennes Road	City of Edinburgh District Council	Replacement planted	—
5.	1	South Lauder Road	Private owner	Replaced	—
6.	2	123 Grange Loan	St. Margaret's School	Replaced	T.P.O.
7. 1979	1	52 Dick Place	Miller Homes	1 tree accepted: no record of planting	T.P.O.
8. 1980	1	Findhorn Place (S)	Private owner	1 replacement accepted	—
9.	2	52 Dick Place	Miller Homes	No replacement accepted	T.P.O.
10.	1	Relugas Road/ Relugas Place	Residents' Association	1 tree accepted	—

#### NOTE

- 1) Replacement is obligatory when a tree has a T.P.O. upon it, and in this case the Planning Department, City of Edinburgh District Council offers a replacement. The tree so planted must be of similar species as far as habit and growth are concerned.
- 2) The Department of Physical Planning, Lothian Regional Council offers a replacement tree when an owner's tree has been condemned because of an attack of Dutch Elm Disease.
