Dear Luke,

I see that application 19/01997/FUL, for which you are the Case Officer, was granted on 28 May 2019. This application is still showing the last date for comments as 7 June 2019.

The Grange Association has a process by which we advise local members of planning applications and invite comments to us, for us to collate into a consistent commentary or objection, prior to the deadline for public comment. By approving this application ahead of the published last date for comments, you have prevented that process.

As it happens, we have received no comments from members concerning this application and I do not expect to receive any, given the nature of the application and the location of the proposed greenhouse, not visible from the street. However, I am writing to ask that, as a point of principle, you please avoid closing applications for comment prior to the advertised date.

Many thanks.

With kind regards,

Nigel Ayton
